

Perro de Toro
Spanish Bulldog; Presa de Toro
Standard Provided by ABIDS

Origin: Spain.

Date of origin: Middle ages?

Height: 50-60 cm. (16-24 in).

Weight: 42-55 kg. (92-121 lbs).

Color: Only brindle, in different shades.

Present situation: Very rare

Additional info: By many believed to be just a more bulldoggy variant of the Alano Español, and by others carefully bred as a breed of its own, and regarded as closer related to the Dogue de Bordeaux than the Alamo.
